What is the I.O.S.?	16

EDITORIAL

For the past 17 years the I.O.S. Repertorium has been published by the International Association for Plant Taxonomy as part of their series "Regnum Vegetable". The I.O.S. will be forever grateful to Prof. J. Lanjouw and Dr. F. A. Stafleu for agreeing to do this, thereby raising what began as essentially a local and esoteric compilation to maximum prominence in the world of taxonomy. Regrettably, for economic reasons, this alliance is no longer possible. However, the I.O.S. has been offered an alternative that is both opportune and apt. Abbey Garden has a long association with publications of a high standard dealing with succulent plants, and we feel privileged that Mr. Charles Glass and Mr. Robert Foster have offered to add the Repertorium to the unique range of literature that they already produce.

The present issue was set up by the I.A.P.T. prior to the change-over and follows the earlier format: if readers would like to send in suggested improvements, these will all be considered when future issues are being planned.

Further thanks are due to our President Mr. L. Vatrican, for providing the French translation, and to Mrs. Lois Glass for the German.

* * *

Le REPERTORIUM de l'I.O.S. était publié depuis 17 ans par l'Association Internationale de Taxinomie Végétale, dans leur série "Regnum Vegetable". L'I.O.S. restera toujours reconnaissante au Professor J. LANJOUW et au Docteur F. A. STAFLEU pour avoir accepté cette tâche apportant ainsi un maximum de notoriété à un ouvrage essentiellement local et ésotérique. Malheureusement, et pour des raisons économiques, cette collaboration n'est plus possible. Mais une autre solution, propice et intéressante a été offerte à l'I.O.S. ABBEY GARDEN est associée depuis longtemps à des publications de haute valeur sur les plantes succulentes et nous nous considérons privilégiés par le fait que Messieurs Charles GLASS et Robert FOSTER aient offert d'ajouter le REPERTORIUM à la collection unique des volumes qu'ils publient déjà.

Le présent numéro a été réalisé par l'I.A.P.T. avant le changement, et correspond aux numéros précédents; si les lecteurs souhaitent nous adresser des suggestions d'amélioration, il en sera tenu compte lors de la réalisation des prochaines publications.

Nous tenons à remercier également notre Président, Monsieur L. VATRICAN, pour la traduction française et Madame Lois GLASS pour l'Allemande.

* * *

Seit 17 Jahren ist das Repertorium vom Internationalen Verein für Pflanzen-Taxonomie herausgegeben worden, und zwar als Bestandteil der Serie: "Regnum Vegetable". Die I.O.S. liegt ewig in der Schuld der beiden Herren Prof. J. Lanjouw und Dr. F. A. Stafleu, dass sie diesem Verfahren zugestimmt haben, wodurch eine einst wesentlich beschränkte und eng fachgebundene Zusammentragung neuerdings einem maximalen Leserkreis auf dem Gebiet Taxonomie vorgelegt wird. Leider ist diese Verbindung jetzt aus wirtschaftlichen Gründen ausgeschlossen. Der I.O.S. wird jedoch eine weitere passende und günstige Möglichkeit geboten. Abbey Garden hat sich schon lange als Verlag bewährt, der sehr hochwertige Fachwerke über sukkulenten Pflanzen herausgibt, so sehen wir es als Privilegium an, dass die Herren Charles Glass und Robert Foster bereit sind, dem bestehenden unfangreichen und einmaligen Programm auch das Repertorium hinzuzufügen.

Die vorliegende Ausgabe wurde schon in Rahmen des alten Uebereinkommens vom I.A.P.T. aufgesetzt und entspricht daher dem bekannten Format; wir begrüßen jeden Vorschlag von seiten unserer Leser, der zu einer Verbesserung beitragen könnte, und sind gerne bereit, denselben beim Zusammenfassen aller künftiger Hefte zu berücksichtigen.

Zum Schluss sprechen wir unserem Präsidenten, dem Herrn L. Vatrican, einen aufrichtigen Dank dafür aus, dass er die Uebersetzung in die französische Sprache übernehmen wollte, sowie Frau Lois Glass, die eine Uebersetzung ins Deutsche lieferte.

NOMINA NOVA

Agavaceae

Agave aktites Gentry, The Agave Family in Sonora: 148-150, March 1972.

Agave americana L. var. *expansa* (Jac.) Gentry (= *A. expansa* Jacobi in Nachtr. I in Abh. Schles. Ges. Vat. Cult., Abth. Naturwiss. 1868: 151), The Agave Family in Sonora: 80, March 1972.

Agave felgeri Gentry, The Agave Family in Sonora: 60-62, March 1972.

Agave fortiflora Gentry, The Agave Family in Sonora: 122-126, March 1972.

Agave jaibolii Gentry (as "jaiboli"), The Agave Family in Sonora: 89-94, March 1972.

Agave multifilifera Gentry, The Agave Family in Sonora: 46-50, March 1972.

Agave oahuia Gentry, The Agave Family in Sonora: 72-76, March 1972.

Agave parviflora Torr. ssp. *flexiflora* Gentry, The Agave Family in Sonora: 56-57, March 1972.

Agave pelona Gentry, The Agave Family in Sonora: 76-80, March 1972.

Agave polianthiflora Gentry, The Agave Family in Sonora: 51-54, March 1972.

Agave shrevei Gentry ssp. *matapensis* Gentry, The Agave Family in Sonora: 115-117, March 1972.

Agave zebra Gentry, The Agave Family in Sonora: 126-130, March 1972.

Asclepiadaceae

Brachystelma cathcartense Dyer, Bothalia 10: 431, July 1971.

* x *Carapelia* Rowl. n. gen. hybr. (= *Caralluma* R. Br. x *Stapelia* L.; Typ. x *C. tarantuloides* [Dyer] Rowl.)

* x *Carapelia tarantuloides* (Dyer) Rowl. n. comb. (= *Caralluma caudata* N. E. Br. x *Stapelia gigantea* N. E. Br.; *Stapelia tarantuloides* Dyer in Fl. Pl. Afr. XVIII t. 717, 1938).

Ceropegia bonafoxi K. Schum. var. *linearifolia* Stopp. Bot. Jahrb. 90: 474, Mar. 1971.

Ceropegia mendesii Stopp., Bot. Jahrb. 90: 472, Mar. 1971.

Ceropegia sahyadrica Ans. & Kulk, Indian Forester 97: 688-690, 1971.

Duvalia eilensis Lavr., Cact. Succ. J. Amer. 44: 260-261, Nov.-Dec. 1972.

Echidnopsis ericiflora Lavranos, Nat. Cact. Succ. J. 27: 70-71, Sept. 1972.

Echidnopsis leachii Lavranos, Nat. Cact. Succ. J. 27: 69-70, Sept. 1972.

Huernia volkartii Wederm. & Peitsch. var. *repens* Lavr. (= *H. repens* Lavranos in J. S. Afr. Bot. 27: 11, 1961), l.c. 38: 43, Jan. 1972.

Sarcostemma socotranum Lavranos, Nat. Cact. Succ. J. 27: 37-38, June 1972.

Cactaceae

- Acanthocereus chiapensis* Bravo, Cact. Suc. Mex. 17: 117-118, Oct.-Dec. 1972.
- 'Apricot' Kilian (*Echinopsis* x ?), Stachelpost 8: 125, Sept. 1972.
- 'Apricot Delight' Braun (*Echinopsis* x ?), Stachelpost 8: 124-125, Sept. 1972.
- Arrojadoa aureispina* Buin. & Bred., Kakt. and. Sukk. 23: 95-98, Apr. 1972.
- Arrojadoa canudosensis* Buin. & Bred., Cact. Succ. J. Amer. 44: 111-113, May-June 1972.
- 'Aurora' Braun (*Echinopsis* x ?), Stachelpost 8: 124, Sept. 1972.
- Coleocephalocereus luetzelburgii* (Vaup.) Buxb. (= *Cereus luetzelburgii* Vaup. in Zeitschr. f. Sukkulantenk. 1923-1924: 57; *Pilocereus luetzelburgii* Werd.; *Cephalocereus luetzelburgii* Borg; *Pilosocereus luetzelburgii* Byl. & Rowl.; *Pseudopilocereus luetzelburgii* Buxb.), Krainz Die Kakteen 48-49, C IVb, Jan. 1972.
- Corynopuntia* (Knuth) Bravo n. subg. (Gen. *Opuntia*; Typ. *Opuntia clavata* Engelm.; = *Corynopuntia* Knuth in Back. & Knuth Kaktus ABC: 410, 1935), Cact. Suc. Mex. 17: 118, Oct.-Dec. 1972.
- Coryphantha albicolumnaria* (Hest.) Zimm. (= *Escobaria albicolumnaria* Hester in Des. Pl. Life 13: 129-132, 1941), Cact. Succ. J. Amer. 44: 157-158, July-Aug. 1972.
- Coryphantha orcuttii* (Boed.) Zimm. (= *Neolloydia orcuttii* Rose ex Orcutt in Cactography 5, 1926, nom. nud.; *Escobaria orcuttii* Boed. in Ein Mammillarien-Vergleichs-Schlüssel 17, 1933; *Coryphantha strobiliformis* Orc. var. *orcuttii* Bens.), Cact. Succ. J. Amer. 44: 156, July-Aug. 1972.
- Coryphantha organensis* Zimm., Cact. Succ. J. Amer. 44: 114-117, May-June 1972.
- **Echinocereus chloranthus* Engelm. var. *russanthus* (Weniger) Lamb n. comb. (= *E. russanthus* Weniger in Cact. Succ. J. Amer. 41: 41-42, Jan.-Feb. 1969) Lamb "Monthly Notes on the Exotic Collection" Aug. 1972: 62, as n. comb. subnud.
- **Echinofossulocactus acroacanthus* (Stieber) Rowl. n. comb. = *Echinocactus acroacanthus* Stieber in Bot. Zeit. 5: 491, 1847; *Stenocactus acroacanthus* Marsh. & Bock in Cactaceae 146, 1941.
- Echinofossulocactus tegelbergii* Schütz (Sine typ.), Kaktusy 72; 8: 93-94, 1972.
- Echinopsis kladiwaiana* Rausch, Kakt. and. Sukk. 23: 264-265, Oct. 1972.
- Grusonia* (Reich.) Bravo n. subg. (Gen. *Opuntia*; Typ. *Cereus bradtianus* Coul.; = *Grusonia* Reich. in K. Sch. in Monatss. Kakteenk. 6: 177, 1896), Cact. Suc. Mex. 17: 118, Oct.-Dec. 1972.
- Gymnocalcatus aguirreanus* Glass & Fost., Cact. Succ. J. Amer. 44: 80-81, Mar.-Apr. 1972.
- Gymnocalycium eurypleurum* Ritter ex Plesnik, Kaktusy 72, 8: 70-72, 1972.
- Gymnocalycium paraguayense* (Mundt) Schütz, (= *Echinocactus denudatus* Link & Otto var. *paraguayensis* Mundt in Monatss. f. Kakteenk. 7: 169, 1897) Moser in Friciana VIII No. 47: 3-15, Nov. 1972.
- Gymnocalycium ritterianum* Rausch, Kakt. and. Sukk. 23: 180-181, July 1972.
- Gymnocalycium uebelmannianum* Rausch, Succulenta 51: 61-64, Apr. 1972.
- Lagenopsis* Buxb. n. subg. (Gen. *Coleocephalocereus*; Typ. *C. luetzelburgii* Buxb.), Krainz Die Kakteen 48-49, C IVb, Jan. 1972.
- Lemaireocereus* (Br. & R.) Bravo n. subg. (Gen. *Pachycereus*; Typ. *Cereus hollianus* Web.; = *Lemaireocereus* Br. & R. in Contr. U. S. Nat. Herb. 12: 424, 1909 sensu typus solum; Subg. *Eulemaireocereus* Back.; *Lemaireocereus* Br. & R. emend. Back. (Cact. Suc. Mex. 17: 119, Oct.-Dec. 1972).
- Leptocladodia* (Buxb.) Bravo n. subg. (Gen. *Mammillaria*; Typ. *M. elongata* D.C.; = *Leptocladodia* Buxb. in Osterr. Bot. Zeitschr. 98: 82, 1951), Cact. Suc. Mex. 17: 120, Oct.-Dec. 1972.
- Lobivia amblayensis* Rausch, Kakt. and. Sukk. 23: 67-68, Mar. 1972.
- Lobivia amblayensis* Rausch var. *albispina* Rausch, Kakt. and. Sukk. 23: 68, Mar. 1972.
- Lobivia cardenasiana* Rausch, Kakt. and. Sukk. 23: 32-33, Feb. 1972.
- Lobivia chrysantha* Back. var. *hypocyrta* Rausch, Kakt. and. Sukk. 23: 292-293, Nov. 1972.
- Lobivia cinnabarina* Br. & R. var. *grandiflora* Rausch, Kakt. and. Sukk. 23: 291-292, Nov. 1972.
- Lobivia cornuta* Rausch, Succulenta 51: 41-43, Mar. 1972.
- Lobivia hualfinensis* Rausch var. *fechseri* Rausch, Succulenta 51: 123-124, July 1972.

- Lobivia intermedia* Rausch, Kakt. and. Sukk. 23: 263-264, Oct. 1972.
- Lobivia leptacantha* Rausch, Kakt. and. Sukk. 23: 207-208, Aug. 1972.
- Lobivia mizquensis* Rausch, Kakt. and. Sukk. 23: 151-152, June 1972.
- Lobivia simplex* Rausch, Succulenta 51: 134-135, July 1972.
- Lobivia tiegeliana* Wessn. var. *ruberrima* Rausch, Succulenta 51: 101-102, June 1972.
- Mammillaria miegiana* Earle, Sag. Bull. 26: 77-79, 84, Aug.-Sept. 1972.
- Marenopuntiae* (Back.) Bravo n. ser. (Gen. *Opuntia*; Typ. *Opuntia marenae* Pars.; = *Marenopuntia* Back. in Des. Pl. Life 22: 27, 1950), Cact. Suc. Mex. 17: 118, Oct.-Dec. 1972.
- Melocactus brederooianus* Buin., Succulenta 51: 28-33, Feb. 1972.
- Melocactus concinnus* Buin. & Bred., Kakt. and. Sukk. 23: 5-7, Jan. 1972.
- Melocactus cremnophilus* Buin. & Bred., Cact. Succ. J. Amer. 44: 3-5, Jan.-Feb. 1972.
- Melocactus curvicornis* Buin. & Bred., Kakt. and. Sukk. 23: 33-35, Feb. 1972.
- Melocactus glaucescens* Buin. & Bred., Cact. Succ. J. Amer. 44: 159-161, July-Aug. 1972.
- Neobuxbaumia multiareolata* (Daws.) Bravo, Sch. & S.-Mej. (= *Cephalocereus mezcalensis* Bravo var. *multiareolatus* Daws. in Allan Hanc. Found. Occ. Pap. 1: 9, 1948; *Neobuxbaumia mezcalensis* Back. var. *multiareolata* Daws.), Cact. Suc. Mex. 17: 120, Oct.-Dec. 1972.
- Neolloydia conoidea* Br. & R. var. *ceratites* (Quehl) Klad. & Fittk. (= *Mammillaria ceratites* Quehl in Monats. f. Kakteenk. 19: 155-156, 1909; *Coryphantha ceratites* Berg.; *Neolloydia ceratites* Br. & R.), Krainz Die Kakteen 48-49, C VIIIb, Jan. 1972.
- Neolloydia conoidea* Br. & R. var. *grandiflora* (Otto) Klad. & Fittk. (= *Mammillaria grandiflora* Otto in Pfeiff. Enum. Cact. 33, 1837; *Cactus grandiflorus* Kuntze; *Coryphantha grandiflora* Berg.; *Neolloydia grandiflora* Knuth), Krainz Die Kakteen 48-49, C VIIIb, Jan. 1972 & Nov. 1956.
- Neolloydia conoidea* Br. & R. var. *matehualensis* (Back.) Klad. & Fittk. (= *N. matehualensis* Back. in The Spine I. iv: 108, 1948), Krainz Die Kakteen 48-49, C VIIIb, Jan. 1972 & March 1969.
- Neolloydia conoidea* Br. & R. var. *texensis* (Br. & R.) Klad. & Fittk. (= *N. texensis* Br. & R. in Cactaceae 4: 18, 1923), Krainz Die Kakteen 48-49, C VIIIb, Jan. 1972.
- Neolloydia smithii* (Muehl.) Klad. & Fittk. var. *beguinii* (Web.) Klad. & Fittk. (= *Echinocactus beguinii* Web. in K. Sch. Gesamtbeschr. d. Kakt. 442, 1898; *Neolloydia beguinii* Br. & R.; *Gymnocalyx beguinii* Back.), Krainz Die Kakteen 48-49, C VIIIb, Jan. 1972.
- Neolloydia smithii* (Muehl.) Klad. & Fittk. *senilis* Klad. & Fittk. n. nud. (= *N. beguinii* Br. & R. var. *senilis* Borg in Cacti Edn. I: 286, 1937 (sine diagn. lat.), etc.), Krainz Die Kakteen 48-49, C VIIIb, Jan. 1972.
- **Neolloydia smithii* (Muehl.) Klad. & Fittk. '*Senilis*' n. cv. = *N. beguinii* Br. & R. var. *senilis* Borg in Cacti Edn. I: 286, 1937 (sine diagn. lat.); *Gymnocalyx beguinii* Back. var. *senilis* Back.; *Neolloydia smithii* Klad. & Fittk. f. *senilis* Klad. & Fittk., omn. n. nud.
- Neolloydia smithii* (Muehl.) Klad. & Fittk. var. *smithii* (= *Echinocactus smithii* Muehlenpfordt in Allg. Gartenz. 14: 370-371, 1846; *Thelocactus smithii* Borg; *Gymnocalyx beguinii* Back. var. *smithii* Back.), Krainz Die Kakteen 48-49, C VIIIb, Jan. 1972.
- Nopalxochia macdougallii* (Alex.) Bravo n. comb. superfl. (= *Nopalxochia macdougallii* Marshall in Cactus No. 4: 6, 1946), Cact. Suc. Mex. 17: 119, Oct.-Dec. 1972.
- Nyctocereus serpentinus* Br. & R. var. *pietatis* Bravo, Cact. Suc. Mex. 17: 116-117, Oct.-Dec. 1972.
- Opuntia bensonii* Sanch.-Mej., Cact. Suc. Mex. 17: 47-50, 62-63, Apr.-June 1972.
- Opuntia excelsa* Sanch.-Mej., Cact. Suc. Mex. 17: 67-73, July-Sept. 1972.
- Opuntia imbricata* D.C. var. *cardenche* (Griff.) Bravo (= *O. cardenche* Griff. in Rep. Missouri Bot. Gard. 19: 259, 1908), Cact. Suc. Mex. 17: 119, Oct.-Dec. 1972.
- Opuntia imbricata* D.C. var. *lloydii* (Rose) Bravo (= *O. lloydii* Rose in Contr. U.S. Nat. Herb. 12: 292, 1909), Cact. Suc. Mex. 17: 119, Oct.-Dec. 1972.
- Opuntia jaliscana* Bravo, Cact. Suc. Mex. 17: 115-116, Oct.-Dec. 1972.
- Opuntia leptocaulis* D.C. var. *brittonii* ("brittoni") (Ort.) Bravo (= *O. brittonii* Ortega in Mex. Forest 4: 68, 1928), Cact. Suc. Mex. 17: 119, Oct.-Dec. 1972.
- Opuntia nejapensis* Bravo, Cact. Suc. Mex. 17: 115-116, Oct.-Dec. 1972.
- Opuntia robusta* Wendl. var. *guerrana* (Griff.) Sanch.-Mej. (= *O. guerrana* Griff. in Rep. Missouri Bot. Gard. 19: 266, 1908), Cact. Suc. Mex. 17: 119, Oct.-Dec. 1972.
- Opuntia robusta* Wendl. var. *larreyi* (Web.) Bravo (= *Opuntia larreyi* Web. in Coulter in Contr. U.S. Nat. Herb. 3: 423, 1897), Cact. Suc. Mex. 17: 119, Oct.-Dec. 1972.
- Opuntia santamaria* (Baxt.) Bravo (= *Gruisonia santamaria* Baxter in Cact. Succ. J. Amer. 6: 160, 1934), Cact. Suc. Mex. 17: 119, Oct.-Dec. 1972.
- **Opuntia subulata* (Mühl.) Eng. var. *exaltata* (Berg.) Rowl. n. comb. (= *O. exaltata* Berger in Hort. Mortolensis 410, 912; *O. cumingii* hort; *Cylindropuntia exaltata* Back.; *Austrocylindropuntia exaltata* Back.)

- Opuntia tehuantepecana* Bravo (= *O. dillenii* Ker.-Gawl. var. *tehuantepecana* Bravo in Cact. Suc. Mex. 9: 55, 1969) l.c. 17: 119, Oct.-Dec. 1972.
- Opuntia thurberi* Eng. var. *alamensis* (Br. & R.) Bravo (= *O. alamosensis* Br. & R. in Standley in Contr. U.S. Nat. Herb. 23, 5: 1676, 1926), Cact. Suc. Mex. 17: 119, Oct.-Dec. 1972.
- Opuntia velutina* Web. var. *affinis* (Griff.) Bravo (= *O. affinis* Griff. in Proc. Biol. Soc. Washington 27: 27, 1914), Cact. Suc. Mex. 17: 119, Oct.-Dec. 1972.
- Opuntia velutina* Web. var. *macdougaliana* (Rose) Bravo (= *O. macdougaliana* Rose in Smiths. Misc. Coll. 50: 516, 1908), Cact. Suc. Mex. 17: 119, Oct.-Dec. 1972.
- Parodia andreae* Brandt, Stachelpost 8: 145-147, Nov. 1972.
- Parodia challamarcana* Brandt, Stachelpost 8: 1-4, Jan. 1972.
- Parodia ignorata* Brandt, Stachelpost 8: 86-87, July 1972.
- Parodia koehresiana* Brandt, Stachelpost 8: 113-115, Sept. 1972.
- Parodia krasuckana* Brandt, Kakt. and. Sukk. 23: 179-180, July 1972.
- Pediocactus glaucus* Arp n. nom. (= *Echinocactus glaucus* K. Sch. in Gesamtb. d. Kakt. 438, 1898, non Karw.), Cact. Succ. J. Amer. 44: 221, Sept.-Oct. 1972.
- Pediocactus mesae-verdae* (Boiss.) Arp (= *Coloradoa mesae-verdae* Boissevain in Boissevain & Davidson Colorado Cacti: 55, 1940), Cact. Succ. J. Amer. 44: 222, Sept.-Oct. 1972.
- Pediocactus polyancistrus* (Eng. & Big.) Arp (= *Echinocactus polyancistrus* Eng. & Big. in Proc. Amer. Acad. 3: 272, 1856), Cact. Succ. J. Amer. 44: 222, Sept.-Oct. 1972.
- Pediocactus robustior* (Coul.) Arp (= *Echinocactus simpsonii* Eng. var. *robustior* Coulter in Contr. U.S. Nat. Herb. 3: 377, 1896), Cact. Succ. J. Amer. 44: 222, Sept.-Oct. 1972.
- Pediocactus whipplei* (Eng. & Big.) Arp (= *Echinocactus whipplei* Eng. & Big. in Proc. Amer. Acad. 3: 271, 1856), Cact. Succ. J. Amer. 44: 222, Sept.-Oct. 1972.
- Pediocactus wrightiae* (Bens.) Arp (= *Sclerocactus wrightiae* Benson in Cact. Succ. J. Amer. 38: 55, 1966), l.c. 44: 222, Sept.-Oct. 1972.
- Praearthrocereus* Buxb. n. subg. (Gen. *Arthrocereus*; Typ. *A. rondonianus* Back.), Krainz Die Kakteen 48-49, C Va, Jan. 1972.
- Pseudogrusonia* Bravo n. ser. (Gen. *Opuntia*; Typ. *Grusonia santamaria* Baxt.), Cact. Suc. Mex. 17: 119, Oct.-Dec. 1972.
- Pseudopilocereus magnificus* Buin. & Bred., Cact. Succ. J. Amer. 44: 66-70, Mar.-Apr. 1972.
- Pygmaeocereus* Buxb. n. subg. (Gen. *Arthrocereus*; Typ. *P. bylesianus* Andr. & Back.), Krainz Die Kakteen 48-49, C Va, Jan. 1972.
- Rebutia albopectinata* Rausch, Kakt. and. Sukk. 23: 236-237, Sept. 1972.
- Rebutia brunescens* Rausch, Kakt. and. Sukk. 23: 235-236, Sept. 1972.
- Rebutia buiningiana* Rausch, Kakt. and. Sukk. 23: 98-99, Apr. 1972.
- Rebutia eos* Rausch, Succulenta 51: 1-3, Jan. 1972.
- Rebutia krainziana* Kess. var. *hyalacantha* (Back.) - Sempervivum velenovskyi* Cheshm., Bot. Zurn. (Leningrad) 54: 474, 1969.

Dioscoreaceae

- Dioscorea sylvatica* Eckl. ssp. *lydenbergensis* Blunden, Hardman et Hind, Bot. J. Linn. Soc. 64: 445, Oct. 1971.
- **Testudinaria sylvatica* Knuth var. *lydenbergensis* (Bl. Hd. & Hind) Rowl. n. comb. (= *Dioscorea sylvatica* Eckl. ssp. *lydenbergensis* Blunden, Hardman & Hind, Bot. J. Linn. Soc. 64: 445, Oct. 1971.)

Euphorbiaceae

- Euphorbia canariensis* L. forma *viridis* Kunzel n. nud. (Art. 37), Monogr. Biol. Canar. 3: 50, 1972.

Fouquieriaceae

- Bronnia* (H.B.K.) Henrickson n. subg. (Gen. *Fouquieria* H.B.K.; Typ. *F. fasciculata* Nash, Aliso 7: 480, July 1972.
- Fouquieria splendens* Eng. ssp. *breviflora* Henrickson, Aliso 7: 519-522, July 1972.
- Fouquieria splendens* Eng. ssp. *campanulata* (Nash) Henrickson (= *F. campanulata* Nash in Bull. Torr. Bot. Club 30: 457, 1903), Aliso 7: 517-518, July 1972.
- Fouquieria splendens* Eng. ssp. *campanulata* (H.B.K.; Typ. *F. splendens* Eng.), Aliso 7: 480, July 1972.
- Idria* (Kell.) Henrickson n. subg. (Gen. *Fouquieria* H.B.K.; Typ. *I. columnaris* Kell.), Aliso 7: 481, July 1972.
- Ocotilla* Henrickson n. sect. (Gen. *Fouquieria* H.B.K.; Typ. *F. splendens* Eng.), Aliso 7: 480, July 1972.

Liliaceae

- **Aloe bella* Rowl. n. nom. (= *A. pulchra* Lavr. in Cact. Succ. J. Amer. 45: 118-119, 1973; non Jacq. in Hort. Schoenbr. IV: 10, 1804).
- Aloe enotata* Leach, J. S. Afr. Bot. 38: 187-193, 1972.
- Aloe erinacea* Hardy, Bothalia 10: 366, Mar. 1971.
- Aloe luapulana* Leach, J. S. Afr. Bot. 38: 185-188, 1972.

Mesembryanthemaceae

- Neo-Aridaria* Herre n. nud., The Genera of the Mesembryanthemaceae 16 (in clav.) 1971.

Moraceae

- Dorstenia gypsophila* Lavr., Cact. Succ. J. Amer. 44: 257-259, Nov.-Dec. 1972.

Portulacaceae

- Portulaca pilosa* L. ssp. *decipiens* (Poelln.) Gees. (= *P. decipiens* Poelln. in Fedde Rep. 33: 159, 1933; 37: 303, 1934), Blumea 17: 297, 1969.
- Portulaca pilosa* L. ssp. *grandiflora* (Hook.) Gees. (= *P. grandiflora* Hook. in Bot. Mag. t. 2885, 1829, etc.), Blumea 17: 297, 1969.
- Portulaca pilosa* L. ssp. *lakhonensis* (Gagn.) Gees. (= *P. lakhonensis* Gagn. in Bull. Soc. Bot. France 56: 41, 1909), Blumea 17: 299, 1969.
- Portulaca pilosa* L. ssp. *okinawensis* (Walk. & Taw.) Gees. (= *P. okinawensis* Walk. & Taw. in J. Wash. Acad. Sci. 41: 138, 1951), Blumea 17: 298, 1969.
- Portulaca pilosa* L. ssp. *papulosa* (Schlecht.) Gees. (= *P. papulosa* Schlecht. ex Poelln. in Fedde Rep. 37: 257, 1934; *P. advena* Reich. & Poelln.), Blumea 17: 298, 1969.
- Portulaca pilosa* L. ssp. *sundaensis* (Poelln.) Gees. (= *P. sundaensis* Poelln. in Fedde Rep. 50: 105, 1941), Blumea 17: 298, 1969.
- Portulaca pilosa* L. ssp. *villosa* (Cham.) Gees. (= *P. villosa* Cham. in Linnaea 6: 565, 1831; *P. sclerocarpa* Gray; *P. caumii* Brown; *P. hawaiiensis* Deg.), Blumea 17: 297-298, 1969.

* Signifies a new name, validated here for the first time.

NOMINA GENERICA CONSERVANDA

Cactaceae

Melocactus Link & Otto 1827, gen. conserv.
(Typ. *M. communis* Link & Otto; in vicem
Melocactus Boehmer 1760) in Regn. Veg.
82: 338, 1972.

NOMINA NUDA

Crassulaceae

Sempervivum n. combs. by G. G. Bellia & A.
de Andrade in REA No. 5: 32-36 & T. 1-6,
1972 (sine basionym).

WHAT IS THE I.O.S.?

The INTERNATIONAL ORGANISATION FOR SUCCULENT PLANT RESEARCH came into being in 1949 by the common desire of experimenters throughout the world to know more of each others' work. It has achieved recognition as a Commission of the Division of Botany of the I.U.B.S. (International Union of Biological Sciences), a branch of Unesco, but receives no monetary support, being financed entirely by the members themselves. Membership is by election only and confined to leading succulent specialists in each country who form a National Section in close contact with succulent societies and amateur and professional growers. Congresses are held biennially to allow members of different countries to compare their points of view.

* * *

QU'EST-CE QUE L'I.O.S.?

L'ORGANISATION INTERNATIONALE POUR LA RECHERCHE SUR LES PLANTES SUCCULENTES est née en 1949 du commun désir de chaque savant de mieux connaître le travail de ses Collègues du monde entier.

Elle est maintenant reconnue comme une Commission de la Division de Botanique de l'I.U.B.S. (Union Internationale des Sciences Biologiques), dépendant de l'Unesco, mais n'en recevant aucune aide financière, les membres eux-mêmes pourvoient à ses besoins.

Les membres, admis par élection seulement, ne peuvent être pour chaque Nation que des spécialistes notoires des Plantes Succulentes; ils forment, pour chaque pays, une Section Nationale en contact étroit avec les Sociétés Cactophiles, les amateurs et les cultivateurs professionnels.

Des Congrès ont lieu tous les deux ans afin de permettre aux membres des différents pays de confronter leurs points de vue.

WAS IST DIE I.O.S.?

Die INTERNATIONALE ORGANISATION FÜR SUKKULENTENFORSCHUNG entstand 1949 aus dem allgemeinen Wunsch der Sukkulantenforscher der ganzen Welt nach gegenseitigem Austausch ihrer Kenntnisse und Erfahrungen. Sie ist als Kommission der Botanischen Abteilung der I.U.B.S. (Internationale Union der Biologischen Wissenschaften), einem Zweig der Unesco anerkannt, erhält aber keine finanzielle Unterstützung, sodass sie gänzlich auf die Beiträge der Mitglieder angewiesen ist. Die Mitgliedschaft wird allein durch Wahl erworben und ist beschränkt auf führende Sukkulanten-Spezialisten in jedem Lande, die eine nationale Sektion bilden und im engen Kontakt mit den Sukkulanten-Vereinigungen, den Liebhabern und Berufs-Züchtern stehen.

Die Kongresse werden jedes zweite Jahr abgehalten, um eine bessere Verständigung zwischen den Mitgliedern der verschiedenen Länder zu pflegen.
